

## **X3IR Feature Set**

- Turn ON and OFF the XBOX with the XBOX DVD remote control, and any RCA DVD compatible remote.
- Enable/Disable Modchip upon boot.
- User programmable buttons for all functions, such as which button turns on the Xbox or turns it off
- Safety Off(tm) makes sure you press the 'OFF' button 3 times before turning off the Xbox to prevent unintended Xbox shutdown
- Blue status led
- Compatible with any Modchip
- Perfect-Press(tm) - The length of emulated press of front panel 'Power' button can be finely tuned to suit any modchips needs (i.e. long press is 100msec - mod on, short press is 10msec - mod off)

## **Using the X3IR**

With Default Settings:

<b>Xbox Remote Button</b>	<b>Action</b>
Select	Turn On Xbox, Modchip Enabled
Display	Turn On Xbox, Modchip Disabled
0, 0, 0	Turn Off Xbox

Note: 0, 0, 0 means the '0' button is pressed 3 times in a row
